

STOEGER AIRGUNS MISSION

Stoeger AIRGUNS mission is to offer innovative design, advanced ergonomics, fascinating models with excellent ballistic performance at the right price. Our vision is permanent innovation and development of new airgun lines motivating young people to approach the world of hunting and shooting in training by handling air guns and start to develop a proper shooting technique.

DESIGN AND PRODUCT DEVELOPMENT

Innovation in design is the brand's rooted pillar in our ability to understand consumer needs, tastes and aspirations. Italian designers and engineers are constantly engaged to create new possible models where stylistic innovation is combined with functionality. Determined proportions, clear contours, precise lines and pure surfaces are characteristics of Stoeger AIRGUNS design. Design is the focal point where vision, creative inspiration and technology converge. At every phase of the process, from design to industrialization, Stoeger AIRGUNS performs rigorously and tests the quality with precision.

DESIGNED IN ITALY

INNOVATION AS A MUST

Stoeger AIRGUNS is synonymous with Innovation and Italian Design. The Airguns are exclusive, sensual, provocative and always unmistakably Italian. In fact, all our models are entirely idealized and designed in Italy. Stoeger AIRGUNS has always been the creator of dynamic and unrivalled rifles.

SPORTING HEART

Stoeger AIRGUNS rifles are recreational air rifles to have fun, to enjoy the first experience of hunting and shooting. Enjoy the nature, feel good and take up a different air rifle. Our rifles are incomparable through their blend of Fascinating Design and Supreme Shooting Ergonomics.

OUR PHILOSOPHY

Stoeger AIRGUNS has always in mind the design and implementation of something special that could convey new emotions to the shooters. The Stoeger AIRGUNS brand has a cutting-edge, distinct and streamlined design with multiple souls: Sporty, Elegant and Innovative.

TECHNOLOGY

HUMAN TECH DESIGN

With its new Lines, Stoeger AIRGUNS creates the first compressed air rifles inspired by Urbino in Italy, a world heritage city, the cradle of Humanism. Stoeger AIRGUNS combines Urbino's technical inspiration with the innovative vision of Milan's designers whose experience in Industrial Design (ID) and User Experience (UX) is able to transform their technical inspirations into solid and attractive projects. Just thanks to this combination, Stoeger AIRGUNS creates a new method, based on 3 sound compact concepts: Functional Ergonomics, User Interaction Study, User Experience.

PRO ADAPTIVE CHECKERING

Stoeger AIRGUNS ProAdaptive Checkering is the first technical result of our new "Human Tech Design" philosophy. It is the most versatile, efficient and progressive checkering developed so far, one of a kind. It is the result of a project which let shooters expose themselves to a new experience, become one with the airgun and find a perfect feeling with it. The special checkering progression actively and comfortably "fits" the gun, no matter the environment shooters find themselves in.

MULTI GRIP SYSTEM

Stoeger AIRGUNS offers a shooter the choice of the favourite grip and comfort thanks to the new Multi Grip System technology which, by means of an easy and intelligent system, let the rifle be customized. Finally, shooters can adapt the rifle to their own style. Stoeger AIRGUNS rifles are incomparable through their blend of: Fascinating Design, Supreme Shooting Ergonomics, Innovative Style, Technological Capability and Quality.

RX LINE

The RX Line has been developed having in mind a new challenge: the design and implementation of something special that could convey new emotions to both the enthusiastic shooters and those who just want to have fun in the open air or at the shooting range. The RX represents the perfect match between technological style, technical efficiency and care for details. The elegant and ergonomic shapes makes the gun fit perfectly to the shooter. Stoeger AIRGUNS and its RX Line translate technology in style.

XM1

XM1 ensures the best performance in every shooting situation, thanks to the ergo/anatomical studies performed by Italian Engineers (Human Tech Design) and the best weight-stability ratio of the rifle. XM1 has a cutting-edge, distinct and streamlined design with multiple souls: sporty, elegant and innovative. A distinct style of Stoeger AIRGUNS coupled with traits of a sports rifle and hunting rifle. XM1 provides to the shooter a uniquely emotional experience. With its strong personality, pure design and absolute sportiness, XM1 is one of a kind.

BEST ACCURACY

Stoeger AIRGUNS XM1 PCP rifles high precision and best accuracy: every Stoeger AIRGUNS XM1 PCP rifle is accuracy-tested to certify your rifle can perform the best accuracy in its category with a 5 shot group. Ammunition used: Stoeger AIRGUNS X-Sport / Stoeger AIRGUNS X-Match; Distance: 10 m; Power of the rifle: Full Power; N° of shots: 5.

S3 SUPPRESSOR - PATENTED

Completely developed from scratch, it is the first suppressor in the world to have an interchangeable front sight and an air decompression chamber that further enhances the performance of the air regulation baffles, optimized to be more performing than the S2 version. The revolutionary design of the S3 Suppressor has made it possible to develop a longer barrel (35 mm), hence with a greater precision of shooting.

S4 SUPPRESSOR - PATENTED

The latest Stoeger AIRGUNS design evolution of the integral silencer system. It combines the Dual-Effect of the baffles and decompression chamber and now the additional compensator technology. The most advanced technology to reduce the noise better than ever. The best in its class.

4,5 mm/.177: 200 m/s - 660 fps 5,5 mm/.22: 150 m/s - 500 fps

RX5 - COMPACT PERFORMANCE

Human Tech Design philosophy translated to a compact and light, easy to handle air rifle with RX aesthetics and functional innovations – to approach the world of air rifles and fun outdoor shooting.

Safety Button with Pro Adaptive Checkering

Recoil absorbing pad with Pro Adaptive anti slip checkering

Front sight with fiber optic

RX5 - TECHNICAL FEATURES			
Caliber	4,5 mm /.177 - 5,5 mm /.22	Finish	Black Synthetic Green Synthetic Grey Synthetic Hardwood - Rifled, blued steel barrel
Power source	Spring piston	Rail for scope	Integral dovetail scope rail on receiver
Cocking system	Break-action breech-loader with ergonomic cocking grip	Scope for combo	4x32 with two rings
Trigger	Double stage - factory set	Total length	41 in. / 1.030 mm
Safety	Automatic, ambidextrous safety mounted on back of receiver	Barrel length	16.5 in./420 mm
Front sight	Hooded front sight with a red, fiber-optic insert	Weight	2,4 Kg without scope
Rear sight	Fiber-optic, fully adjustable for elevation and windage	Velocity cal.4,5 mm with alloy pellet:	245 m/s - 810 fps - Velocity cal.4,5 mm with lead pellet: 200 m/s - 660 fps
Stock	Human Tech Design Stock with Pro Adaptive Checkering	Velocity cal.5,5 mm with lead pellet:	150 m/s - 500 fps
